SUMMARY

A results-driven Frontend Developer with 5 years of experience specializing in creating adaptive and responsive websites. Proven ability to improve website performance, enhance user engagement, and lead projects that strengthen brand presence through compelling web designs.

WORK EXPERIENCE

Techbeaver - Frontend Developer

Jan 2022 – Current

- Implement and maintain front-end web applications, reducing page load speeds and improving conversion rates by utilizing modern web technologies such as React.js and best practices for user experience and accessibility.
- Develop and execute frontend development strategies, increasing website performance by implementing optimization techniques such as code minification.
- Work with cross-functional teams to develop and execute on-time and on-budget projects and initiatives.
- Engineer stable and maintainable codebases to ensure seamless user interactions.
- Partner with design teams to create intuitive and engaging user interfaces, enhancing user satisfaction.
- Implement bug fixes and conduct code reviews to maintain high code quality and reduce defects.
- Design and execute HTML email templates for marketing campaigns, increasing customer engagement.

720Degree Innovation Hub - Frontend Developer/Frontend Development Instructor

Nov 2020 – Jan 2022

- Implemented and maintained frontend web applications, resulting in a 10% increase in website traffic and conversion rates.
- Guided and mentored aspiring Frontend Developers, helping over 50 students acquire valuable skills and succeed independently.
- Crafted scalable, responsive, and cross-browser compatible code, delivering exceptional user experiences and increasing user retention.
- Collaborated with creative and development teams to transform ideas into impactful projects, boosting team productivity.
- Instructed students in effective use of learning materials and technologies, fostering a dynamic learning environment.
- Utilized advanced HTML and JavaScript frameworks and libraries, improving application performance and user experience.

720Degree Innovation Hub - Website Developer Intern

Jun 2020 – Oct 2020

- Assisted in the development and maintenance of frontend web applications, resulting in a positive impact on the company's overall performance.
- Supported senior frontend developers in ReactJS, resulting in a more efficient and cohesive tech team.
- Optimized page elements to reduce loading time by 20% and debugged code to ensure cross-browser usability.
- Engineered efficient and maintainable codebases using HTML, CSS, and JavaScript for responsive web design
- Collaborated with design teams to ensure seamless integration of designs into the development process, improving user satisfaction by 15%.
